Question 1: Is there a contractor available for asbestos' removal?

Answer: Yes, the city has an existing contract with a certified asbestos removal contractor, and they have already provided the city with separate pricing for the window abatement.

Question 2: Is it considered two bids if some windows must be replaced and some can be repaired?

Answer: You would structure your bid to reflect what windows need replaced and what windows need repaired. The city is aware that not all the windows may be salvageable but would prefer as many be saved as possible and similar materials be utilized to keep the integrity of the building.
